#38 BAI A ATTOLINI TEAM RESULTS – FIRST EVENT WORLD CHAMPIONSHIP LA VALLETTA (MALTA) – MAY 9-10/2009

The first PowerboatP1 World Championship 2009 event took place on 9th and 10th of May in La Valletta, Malta. On this first race the # 38 Baia Attolini Team obtained great results, opening the Powerboat new season the best way possible.

On the Malta event the team, for the occasion composed by Stefano Acanfora, Renato Guidi and Roy Capasso, arrived 1st in the sprint manche after a fierce, but loyal race, nip and tuck with the rivals of the Seagull Chaudron. Both teams have been protagonists of an involuntary but spectacular accident that fortunately hasn't had consequences though the high speed. Unfortunately the Team received a penalization because of a challenged speeding penalty; we hope that, if it happens again, it will be proved with right instruments. However, thanks to the position obtained in the endurance manche, the # 38 Baia Attolini Team ended the first Supersport class event at the second place scoring 160 points.

The next event will take place in Istanbul – Turkey, where the #38 Baia Attolini will offer another fabulous and engaging show in the Bosforo straits, in order to improve his position in the overall standing.
